

One system, three shades: a simplified solution for all cavity classes

New

Solventum™ Filtek™ Easy Match Flowable Restorative

It's time to add a simplified flowable to your toolbox! Featuring virtually bubble-free delivery, our newest flowable complements **3M™ Filtek™ Easy Match Universal Restorative**.

Both composites offer intuitive shade selection, naturally-adaptive opacity, and the excellent polish retention and wear resistance you've come to expect from Filtek dental restoratives.

Plus, they are indicated for composite warming with the fast, easy and portable

Solventum™ Filtek™ Composite Warmer!

Bright, Natural and Warm:

Just 3 shades provide
an excellent match to
most patients' smiles –
no blocker needed.
