

Charisma® Opal Charisma® Opal Flow

Discover the simplicity of natural restorations.

Beauty is so easy to achieve.

Easy handling, reliability and natural aesthetics are what you expect from the Charisma brand. Charisma Opal and Charisma Opal Flow enable the creation of beautiful, invisible restorations in an even simpler and more usable manner.

- » **Charisma Opal:** With easy handling, reliability and natural aesthetics through fluorescence and opalescence effects, Charisma Opal enables the creation of beautiful, invisible restorations.
- » **Charisma Opal Flow:** With a very good controllable viscosity, diagnosis-safe radiopacity and superior mechanical properties, this flowable composite is the ideal addition to Charisma composites.

Giving a hand to oral health.

Charisma® Opal/Charisma® Opal Flow –

Discover the simplicity of natural restorations.

Beauty is so easy to achieve

Easy handling, reliability and natural aesthetics are what you relate with the Charisma brand. Charisma Opal enables the creation of beautiful, undetectable restorations in an even simpler and more usable manner. With its intrinsic colour characteristics mimicking natural tooth substance and its comprehensible shade system, Charisma Opal fulfils all wishes to provide your patients with the best treatments possible – in the least time possible.

Charisma® Opal – Your assets at a glance.

Beauty is easily achieved:

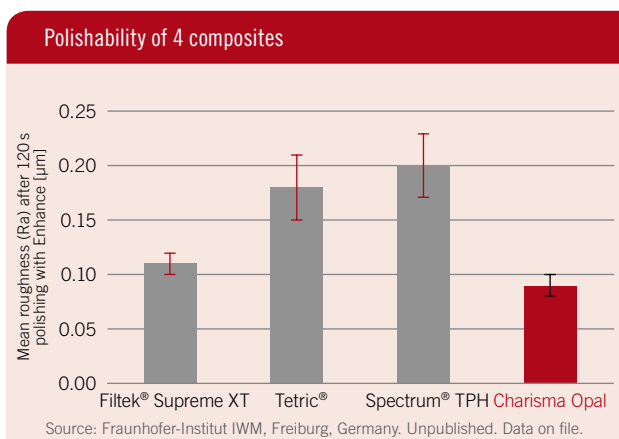

- Charisma Opal provides natural fluorescence and opalescence effects as well as optimised opacities for naturally beautiful restorations. With Charisma Opal naturality and beauty are always at hand.

The shades are easily matched:

- You profit from a compact shade system with 14 shades for every indication. And Charisma Opal provides a 2-layer shade guide which is hand-layered and made of original material to determine the right colour for a filling. Shade matching has never been this easy and accurate.

Its balanced attributes are easy to rely on:

- The development of Charisma Opal is based on our long-term experience with Charisma. Charisma Opal covers all demands of a universal composite system as it combines natural aesthetics and polishability with equilibrated physical properties.

Charisma® Opal Flow – The Comfort Flow for all applications.

Safety and strength combined

Charisma Opal Flow is the ideal completion of the Charisma brand. Because of its very good controllable viscosity the minimal invasive tasks will be even more uncomplicated. Charisma Opal Flow stands for diagnosis-safe radiopacity and easy handling. With this addition to either Charisma Diamond or Charisma Opal you get everything you need for durable and safe restorations.
